Course availability for students

Course offered to student categories

Domestic fee-paying; International students (student visa holders); International students (non-student visa holders);

Rules

Applicability of the Student Rules, policies and procedures

1.(1) The Student Rules apply to students in this course.

(2) The policy, policy statements and guidance documents and student procedures apply, except as otherwise indicated in the rules for this course.

Academic Conduct Essentials and Communication and Research Skills modules

2.(1) A student who enrolls in this course for the first time irrespective of whether they have previously been enrolled in another course of the University, must undertake the Academic Conduct Essentials module (the ACE module) and the Communication and Research Skills module (the CARS module).

(2) A student must successfully complete the ACE module within the first teaching period of their enrolment. Failure to complete the module within this timeframe will result in the student's unit results from this teaching period being withheld. These results will continue to be withheld until students avail themselves of a subsequent opportunity to achieve a passing grade in the ACE module. In the event that students complete units in subsequent teaching periods without completing the ACE module, these results will similarly be withheld. Students will not be permitted to submit late review or appeal applications regarding results which have been withheld for this reason and which they were unable to access in the normally permitted review period.

Admission rules - English language competency requirements

3. To be considered eligible for consideration for admission to this course an applicant must satisfy the University's English language competence requirement as set out in the [University Policy on Admission: Coursework](#).

Admission rules - admission requirements

4.(1) To be considered for admission to this course an applicant must have—

(1)(a) a Bachelor's degree, or an equivalent qualification, as recognised by UWA;

and

(b) the equivalent of a UWA weighted average mark of at least 60 per cent;

or

(c) at least two years professional experience in a relevant occupation; or

(2)(a) completed a Graduate Certificate in Finance, or Graduate Certificate in Human Resources and Employment Relations, or Graduate Certificate in Business Information and Logistics Management, or Graduate Certificate in Commerce, or Graduate Certificate in Marketing, or Graduate Certificate in Economics at UWA.

Admission rules - ranking and selection

5. Where relevant, admission will be awarded to the highest ranked applicants or applicants selected based on the relevant requirements.

Articulation and Exit Awards

6.(1) The following courses form part of an articulated sequence:

- 41250 Graduate Certificate in Finance (24 points)
- 41260 Graduate Certificate in Human Resources and Employment Relations (24 points)
- 41270 Graduate Certificate in Business Information and Logistics Management (24 points)
- 41280 Graduate Certificate in Commerce (24 points)
- 41290 Graduate Certificate in Marketing (24 points)
- 41680 Master of Commerce (96 points)
- 42230 Graduate Certificate in Economics (24 points)

(2) A student who withdraws from the Master of Commerce course before completing it, but after fulfilling the requirements of a lesser award in the above sequence, may apply for the relevant award.

Course structure	7.(1) The course consists of units to a total value of 96 points (maximum value) which includes conversion units to a value of 24 points, course core units and specialisation units. The course comprises the following specialisations : SP-ACCTG Accounting SP-BSIMG Business Information and Logistics Management SP-ECONS Economics SP-EMPCO Employment Relations SP-FINCE Finance SP-HRSMT Human Resource Management SP-INBUS International Business (Not Available for 2021) SP-MGMNT Management SP-MRKTG Marketing (2) Units must be selected in accordance with the course structure, as set out in these rules. (3) Students who have completed a Bachelor of Commerce or equivalent as recognised by the Faculty are granted credit for conversion units up to a value of 24 points.
Satisfactory progress rule	8. To make satisfactory progress a student must pass units to a point value greater than half the total value of units in which they remain enrolled after the final date for withdrawal without academic penalty. 9. A student who has not achieved a result of Ungraded Pass (UP) for the Communication and Research Skills module (the CARS module) when their progress status is assessed will not have made satisfactory progress even if they have met the other requirements for satisfactory progress in Rule 8.
Progress status	10.(1) A student who makes satisfactory progress in terms of Rule 8 is assigned the status of 'Good Standing'. (2) Unless the relevant board determines otherwise because of exceptional circumstances— (a) a student who does not make satisfactory progress for the first time under Rule 8 is assigned a progress status of 'On Probation'; (b) a student who does not make satisfactory progress for the second time under Rule 8 is assigned a progress status of 'Suspended'; (c) a student who does not make satisfactory progress for the third time under Rule 8 is assigned a progress status of 'Excluded'. 11. A student who does not make satisfactory progress in terms of Rule 9 is assigned the progress status of 'On Probation', unless they have been assigned a progress status of 'Suspended' or 'Excluded' for failure to meet other satisfactory progress requirements in Rule 8.
Award with distinction rule	12. To be awarded the degree with distinction a student must achieve a course weighted average mark (WAM) of at least 80 per cent which is calculated based on— (a) all units above Level 3 attempted as part of the course that are awarded a final percentage mark; (b) all relevant units above Level 3 undertaken in articulating courses of this University that are awarded a final percentage mark; and (c) all units above Level 3 completed at this University that are credited to the master's degree course.
Deferral	13. Applicants awarded admission to the course are entitled to a deferral of up to 12 months, as per the University Policy on: Admissions (Coursework).
Additional rule(s)	14. Alternative exit award A student who withdraws from the course before completing the course requirements but after completing units to the value of 48 points for the Graduate Diploma in Commerce may apply to the Faculty to be awarded the relevant qualification. 15. Course Structure Students must complete at least one of the specialisations in 7(1).

Course structure

 Students who have not completed the Bachelor of Commerce, or equivalent as recognised by the Faculty, may be required to complete relevant conversion units up to the value of 24 points, as advised by the Faculty:

 Take all units (12 points):

Mapping of outcomes

Outcomes mapping document URL <https://uniwa.sharepoint.com/sites/curriculummapping/SitePages/Home.aspx>

Specialisation: Accounting [SP-ACCTG]

Code	SP-ACCTG
Title	Accounting
About this specialisation	The Accounting specialisation offers a solid foundation in core accounting concepts and practices to enable students to embark on a career in accounting, equipped with the knowledge and skills essential for a professional in the business world. It focuses on the preparation, interpretation and communication of accounting information, crucial for effective decision making within and outside an organisation. Students can choose to undertake study in financial and/or management accounting. Units within this specialisation may enable students to meet professional accounting membership requirements when considered in conjunction with their other studies.
Specialisation-specific outcomes	Students completing an Accounting specialisation will be able to: • review, analyse, consolidate and synthesise specialist knowledge and identify and provide solutions to complex problems in accounting theory • Demonstrate proficiency to analyse routine accounting problems/issues and develop practical solutions • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: Business Information and Logistics Management [SP-BSIMG]

Code	SP-BSIMG
Title	Business Information and Logistics Management
About this specialisation	Students acquire the knowledge and practical skills vital for the business analyst or supply chain manager. The Business Information and Logistics Management specialisation blends studies in information systems, operations management and logistics so that the student examines advanced issues including enterprise resource systems, modelling operations and strategic management of the supply chain.
Specialisation-specific outcomes	Students completing a Business Information and Logistics Management specialisation will be able to: • review, analyse, consolidate and synthesise specialised knowledge and identify and provide solutions to complex problems in business information management theory • Apply cognitive and technical skills to generate and evaluate complex concepts and problems in business information management. • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: Economics [SP-ECONS]

Code	SP-ECONS
Title	Economics

About this specialisation	The Economics specialisation is designed to cover core concepts in economics, and give students a solid foundation in understanding how economics impacts on both the private and public sector of society.
Specialisation-specific outcomes	Students completing an Economics specialisation will be able to: • review, analyse, consolidate and synthesise specialised knowledge and identify and provide solutions to complex problems in economic theory • think critically and to generate and evaluate complex concepts and problems in economics • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: Employment Relations [SP-EMPCO]

Code	SP-EMPCO
Title	Employment Relations
About this specialisation	The Employment Relations specialisation combines academic learning with case studies in workplace relations between employers and employees. Students examine how work and employment are evolving, the way employees are managed, the role of unions, how cooperation and negotiation can be developed, and how conflict can emerge and be managed. Students learn about the wider impact of employment relations on the economy, society and politics. Almost all of us are an employee or employer at some stage and the learning in employment relations helps students to better understand their experiences in an employment relationship.
Specialisation-specific outcomes	Students completing a Employment Relations specialisation will be able to: • Critically analyse strategies for managing complex stakeholder relationships responsibly and demonstrate specialist skills in employment relations theory • think critically and to generate and evaluate complex concepts and problems in employee relations • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: Finance [SP-FINCE]

Code	SP-FINCE
Title	Finance
About this specialisation	The Finance specialisation equips students with strong foundations in finance. These include corporate finance issues facing managers within an organisation such as the appropriate equity to debt mix to fund projects, identifying the optimal dividend policy, and the selection of business projects. Students are also exposed to concepts in investment finance including risk and return trade-offs, workings of the capital market, investment products and investment portfolios, and appropriate risk management techniques. This specialisation is designed to prepare students for entry into the finance profession.
Specialisation-specific outcomes	Students completing a Finance specialisation will be able to: • review, analyse, consolidate and synthesise specialised knowledge and identify and provide solutions to complex problems in finance theory • Demonstrate proficiency to analyse routine finance problems/issues and develop practical solutions • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: Human Resource Management [SP-HRSMT]

Code	SP-HRSMT
Title	Human Resource Management
About this specialisation	The Human Resource Management specialisation combines academic learning with workplace-based scenarios to lead to a theoretical and practical grounding in the management of people and employment in Australia and overseas. Students start with an introduction to the broad cross-section of human resources (HR) roles and functions and then take more advanced units which consider performance management, career development, workforce engagement, compensation and rewards, employee retention, strategic HR policy and current research and contemporary models of HRM practice. In addition there is the opportunity to include specialist units which introduce the student to the major tests and instruments utilised in the selection and assessment of employees, the legal rules guiding employment and people management, managing workplace diversity and organisational change and development.
Specialisation-specific outcomes	Students completing a specialisation in Human Resource Management will be able to: • review, analyse, consolidate and synthesise specialised knowledge and identify and provide solutions to complex problems • think critically and to generate and evaluate complex concepts and problems in human resource management • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: International Business (Not Available for 2021) [SP-INBUS]

Code	SP-INBUS
Title	International Business (Not Available for 2021)
About this specialisation	This specialisation is not available to commencing students in 2021. Continuing students should refer to 2014 course rules.
Specialisation-specific outcomes	n/a

Specialisation: Management [SP-MGMNT]

Code	SP-MGMNT
Title	Management
About this specialisation	Add the Management specialisation to your degree and invest in your capacity to be an effective leader and to progress your future, whatever industry sector you work in. Formal training in management is an essential component of any professional education. Whatever your chosen career or discipline area, when you graduate from The University of Western Australia, the chances are that you will soon be taking on significant managerial and leadership responsibilities. Managerial talent and ability are widely recognised to be the foundation on which high performing enterprises and a competitive economy are built. To be effective, the contemporary manager needs to know how to make effective use of human resources, be able to plan and act strategically, and to manage the internal structure of the enterprise, as well as its interface with a turbulent and increasingly international environment. The dynamism of the global economy and rapid technological are causing significant challenges and opportunities within organisations which you, with your understanding of the manager's role, can rise to and meet.
Specialisation-specific outcomes	Students completing a Management specialisation will be able to: • review, analyse, consolidate and synthesise specialised knowledge and identify and provide solutions to complex problems in management theory • Demonstrate proficiency to analyse routine management problems/issues and develop practical solutions • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts

Specialisation: Marketing [SP-MRKTG]

Code	SP-MRKTG
Title	Marketing
About this specialisation	Due to the advent of new electronic technologies—the opening of new markets, and among others, the varied challenges organisations in all sectors find themselves confronting in their customer, client and community interactions—today's marketing environment, whether in the private or public sector, is an exciting one in which to work. The Marketing specialisation prepares students to successfully operate in the marketing environment by exposing them to the latest thinking and examples of best practice across a wide range of areas such as marketing management, consumer behaviour, promotion, advertising, marketing research, services marketing, project and channel management and strategic marketing. Classes are taught by a combination of lectures, seminars, workshops and other in-class activities. Undertaking a marketing specialisation at The University of Western Australia involves studying with one of the best groups of marketing academics in the country, all of whom are at the forefront of marketing knowledge. When this is combined with the UWA Business School's excellent relationships with industry, governments and the not-for-profit sector, the result is a great combination of theory, practice and future prospects for students considering a rewarding career in marketing.
Specialisation-specific outcomes	Students completing a specialisation in Marketing will be able to: • review, analyse, consolidate and synthesise specialised knowledge and identify and provide solutions to complex problems in marketing theory • think critically and to generate and evaluate complex ideas in marketing • communicate clearly, effectively and appropriately to relate to a variety of stakeholders across a range of business contexts
